Art at St. Andrew's: What does it look like?

We use Kapow Primary to support the teaching and learning of Art & Design at St. Andrew's.	Children have the opportunity to develop drawing, painting, printmaking, photography, mixed media, craft techniques and sculpture skills.	We run 'Create Club' every week, an after-school club from The Creation Station, where children can explore Art through creative activities and challenges.	Year 1 - 6 pupils have their own sketchbooks. These promote creativity and individuality through taking inspiration from a range of artists.
We have taken part in Sky Arts week. We have listened to Opera, experienced different styles of dance, had Art lessons from secondary school specialists, pottery lessons from a trained potter and have created sculptures.			Creativity and independence are at the core of our teaching, supporting children in learning how to make their own creative choices and decisions so their outcomes are unique to the child.
	Art regularly features in OWL— Outdoor Woodland Learning, using natural materials to create art.		We explore the formal elements of Art: exploring colour, form, line, pattern, shape, texture and tone.
