Geography at St. Andrew's: What does it look like?

<table>
<tr>
<td>
</td>
<td>Children will understand how and why places are changing, and to better imagine, predict and work towards what the future may hold. We celebrate the diversity within our world through an understanding of the people, animals and environments within it.</td>
<td></td>
<td>We support our teaching and learning with award winning resources and software across school.
</td>
</tr>
<tr>
<td>Children are guided through making sense of their physical world and their community through opportunities to explore, observe and find out about people, places, and the environment.</td>
<td>
</td>
<td>Geography-led topics are completed throughout all year groups. Progression of skills and vocabulary is ensured.

All year groups visit the local farm, linking the field work to their relevant Geography topic.</td>
<td>Globes and a variety of other geographical resources are available in all classrooms. Displays around school celebrate work in geography and cross-curricular links are made.</td>
</tr>
<tr>
<td>A KS1 visit to the library gives children the opportunity to map their local area and make observations and comparisons of buildings.

Children extend their knowledge and understanding beyond the local area to include Europe, North and South America. This will include studying the location and characteristics of a range of the world's most significant human and physical features.</td>
<td>Pioneer Centre
Children attend a three-day residential visit. There are opportunities for activities at many different levels where they learn outdoor skills as well as being provided with the opportunity to grow personally, and become more independent.</td>
<td></td>
<td>OWL - At St Andrew's we are very lucky to have a dedicated area of the school grounds for outdoor learning. This enables pupils to experience and enjoy the physical features of the local area.
</td>
