Computing at St. Andrew's: What does it look like?

Safer internet Day  Each class takes part in Key Stage appropriate activities.	The Computing curriculum follows NCCE Scheme of Work which is Government approved. This ensures consistency and progression across all year groups.	Subject Lead and Digital Leaders plan and deliver Key Stage assemblies during E-Safety week. 	 E-Safety posters prominent in the school corridors to constantly reinforce the importance of being safe online. These have been created by the Digital Leaders.
Timestable Rockstars and Numbots are used to aid children's learning in Maths. These programmes are used on iPads in the classroom and can also be used for home learning.	We belong to Shropshire ICT, who mange our safety features and software. This ensures we have the latest programmes installed. Shropshire ICT	BeeBots are used in KS1 to introduce the concept of programming. 	We work closely with our PTFA who fundraise for the purchase of new equipment. 
We have a dedicated IT technician who ensures our equipment is fully maintained so that they are fit for purpose to deliver the curriculum.	Videos and presentations available in Purple Mash assist staff in delivering the Computing objectives.	Parents are kept up to date with some of the latest e-safety updates through the school newsletter.	The Subject Leader attends Subject Leader updates for Computing.
